

Constructing an Institutional Real Estate Portfolio.

Experienced, Best-in-Class Sub-Advisors

Bluerock's Total Income+ Real Estate Fund ("TI+") offers individual investors access to a portfolio of institutional real estate investment funds managed by top-ranked institutional managers. With TI+, investors seeking income, capital appreciation and low correlation to equity and debt markets have an opportunity to invest directly alongside leading endowments and pension funds in private real estate investments previously accessible only to large institutions... but with significantly lower minimum investments.

Because performance can greatly depend on the quality of the fund managers, Bluerock has engaged two of the industry's most respected investment advisors – **Mercer Investment Management, Inc.** and **RREEF America LLC** (a division of Deutsche Asset Management) to advise on the private equity and public securities investments of the Fund.

Risk Disclosures

The Total Income+ Real Estate Fund (the "Fund") is a continuously offered, non-diversified, closed-end management investment company that is operated as an interval fund.

Investing in the Fund involves risks, including the risk that you may receive little or no return on your investment or that you may lose part or all of your investment. The ability of the Fund to achieve its investment objective depends, in part, on the ability of the Advisor to allocate effectively the Fund's assets in which it invests. There can be no assurance that the actual allocations will be effective in achieving the Fund's investment objective or delivering positive returns.

The Fund's investments may be negatively affected by the broad investment environment in the real estate market, the debt market and/or the equity securities market. The value of the Fund's investments will increase or decrease based on changes in the prices of the investments it holds. This will cause the value of the Fund's shares to increase or decrease. The Fund is "non-diversified" under the Investment Company Act of 1940 since changes in the financial condition or market value of a single issuer may cause a greater fluctuation in the Fund's net asset value than in a "diversified" fund. The Fund is not intended to be a complete investment program.

The Fund's investment in Institutional Investment Funds will require it to bear a pro rata share of the vehicles' expenses, including management and performance fees. The Fund's investment in Institutional Investment Funds will require it to bear a pro rata share of the vehicles' expenses, including management and performance fees. The judgments of the Advisor or Sub-Advisor about the attractiveness, value and potential appreciation of particular real estate segment and securities in which the Fund invests may prove to be incorrect and may not produce the desired results.

There are additional risks associated with REITs which include, declines from deteriorating economic conditions, changes in the value of the underlying property, and defaults by borrowers. The sale of securities to fund repurchases could reduce the market price of those securities, which in turn would reduce the Fund's net asset value. Leverage by Underlying Funds and/or the Fund has the effect of potentially increasing losses. Institutional Investment Funds are not publicly traded, and the Fund may consider information provided by the institutional asset manager to determine the value of the Fund's investment therein, which if inaccurate could adversely affect the Advisor's ability to value accurately the Fund's shares.

Investors should carefully consider the investment objectives, risks, charges and expenses of the Total Income+ Real Estate Fund. This and other important information about the Fund is contained in the prospectus, which can be obtained by calling 888-459-1059. The prospectus should be read carefully before investing. The Total Income + Real Estate Fund is distributed by Northern Lights Distributors, LLC member FINRA/SIPC. Bluerock Fund Advisor, LLC is not affiliated with Northern Lights Distributors, LLC, or Mercer Investment Management, or Deutsche Asset Management.

There can be no assurance that any investment strategy will achieve its objectives, generate profits or avoid losses.
