Risk Disclosures

Investing in the Fund involves risks, including the risk that you may receive little or no return on your investment or that you may lose part or all of your investment. The ability of the Fund to achieve its investment objective depends, in part, on the ability of the Advisor to allocate effectively the Fund's assets in which it invests. There can be no assurance that the actual allocations will be effective in achieving the Fund's investment objective or delivering positive returns, and there is no guarantee that dividends will be paid.

The Fund's investments may be negatively affected by the broad investment environment in the real estate market, the debt market and/or the equity securities market. The value of the Fund's investments will increase or decrease based on changes in the prices of the investments it holds. This will cause the value of the Fund's shares to increase or decrease. The Fund is "non-diversified" under the Investment Company Act of 1940 since changes in the financial condition or market value of a single issuer may cause a greater fluctuation in the Fund's net asset value than in a "diversified" fund. The Fund is not intended to be a complete investment program.

Investing in the Fund's shares involves substantial risks, including the risks set forth in the "Risk Factors" section of the prospectus, which include, but are not limited to the following: the Fund may invest in convertible securities which are subject to risks associated with both debt securities and equity securities; correlation risk such as in down markets when the prices of securities and asset classes can also fall in tandem; credit risk related to the securities held by the Fund which may be lowered if an issuer's financial condition changes which could negatively impact the Fund's returns on investment in such securities; interest rate risk including a rise in interest rates which could negatively impact the value of fixed income securities.

Investors should carefully consider the investment objectives, risks, charges and expenses of the Total Income+ Real Estate Fund.
